## Welcome to the Harcourt Achieve Combined Leveling Guide

Harcourt Achieve is pleased to provide this leveling guide as a service to our customers. We do not endorse any specific leveling system. The following leveling systems represent the ones most frequently requested by our customers:

FP = Fountas and Pinnell Guided Reading Levels:

*Matching Books to Readers, Using Leveled Books in Guided Reading K-3.*

Irene C. Fountas and Gay Su Pinnell. Heinemann, 1999.

*Guiding Readers and Writers Grades 3-6.* Irene C. Fountas and Gay Su Pinnell.

Heinemann, 2001.

DRA = Developmental Reading Assessment Levels:

*Developmental Reading Assessment Resource Guide.*

Joetta Beaver, Celebration Press, 1997.

RR = Reading Recovery® Levels:

*Reading Recovery* is a registered service mark of the Ohio State University. The complete *Reading Recovery* book list, created by the Reading Recovery Council of North America, includes books from numerous publishers, since a premise of the program is that children be provided with a wide range of texts. One publisher's book list alone is not sufficient to implement a *Reading Recovery* program. Levels are subject to change as they are periodically tested and reevaluated.

EIL = Early Intervention Levels:

Levels intended to help implement early intervention programs through the use of Harcourt Achieve Books. Levels are subject to change.

LEXILE™ = Lexile Levels:

"Lexile" and "The Lexile Framework" are trademarks of Metametrics, Inc. Lexile

Levels indicate the reading demand of the text in terms of semantic

difficulty (vocabulary) and syntactic complexity (sentence length).

**The leveling chart on page v roughly illustrates how these levels relate to other leveling systems and to grade levels.**

**Levels in this guide are subjective. Levels may change as the books continue to be used by our field consultants and other educators working directly with students. Teachers are encouraged to freely adjust designated levels according to their personal evaluation.**

Word counts listed for each title offer a reference regarding the length of each book. These word counts do not include the title of the book, but may include captions, labels, or any other words important to comprehending the text (which can be subjective).

When using a book, or a section of a book, for a reading record, it is recommended that teachers count the specific words a student will be reading in order to guarantee the exact word count of the text being used for the reading record.

**Word counts for books in the Sails Collection will not be listed.** Many of the books have captions, labels, charts, tables, graphs, etc. making consensus on exact word counts difficult. However, the Teacher's Resource Book for the following color levels have reading record blackline masters, with text and word counts, for many of the titles:

| Color Level            | Reading Record BLMs | Word Count Ranges for BLMs |
|------------------------|---------------------|----------------------------|
| Magenta/Emergent Level | 18 Titles           | 31 words – 58 words        |
| Red/Early (1) Level    | 9 Titles            | 76 words – 117 words       |
| Yellow/Early (2) Level | 9 Titles            | 129 words – 224 words      |
| Blue/Early (3) Level   | 9 Titles            | 191 words – 253 words      |
| Green/Early (4) Level  | 9 Titles            | 237 words – 357 words      |
| Orange/Fluency Level   | 7 Titles            | 460 words – 579 words      |
